ABOUT US

This is very important as internship programs provide comprehensive experience and knowledge to the students, giving them real and relevant work experience.

CodeAlpha is a leading software development company dedicated to fostering talent and innovation in various domains. With a strong commitment to excellence, we offer internship opportunities that provide hands-on experience in cutting-edge technologies and a dynamic work environment.

INTERNSHIP PERKS

- Internship Offer letter
- Internship Completion Certificate
- QR Verified Certificate
- Unique ID Certificate
- LOR Based on Performance
- Job Opportunities/Placement Support
- Resume Building

INSTRUCTION

- Share your intern status on LinkedIn by mentioning @CodeAlpha.
- Complete Assigned Projects within the mentioned period of time.
- Upload Your whole source code on GitHub by creating repository named CodeAlpha_Project_Name.
- Update your Project completion on LinkedIn with a video explanation and share the GitHub project repository link.
- You will be provided task and In a given time and have to complete that task and submit via Submission form .
- You will be provided four task in all domains but you have to complete only three in your domain (Select three Task).

JAVA DEVELOPMENT

TASK LIST

Interns may be tasked with implementing algorithms, building applications, or contributing to existing codebases. The goal is to gain hands-on experience, improve Java skills, and demonstrate problem-solving abilities in real-world scenarios.

TASK 1

Student Grade Tracker

Develop a program that allows a teacher to enter students' grades and compute their average, highest, and lowest scores. You can use arrays or ArrayLists to store the student data.

TASK 2

Online Quiz Platform

A Simple Banking Application in Java is an ideal project for coding beginners. It covers fundamental concepts like the Scanner class for input, strings, loops, methods, and conditional statements. This project involves basic banking operations such as deposits, withdrawals, checking balances, and exiting the program.

TASK 3

Travel Itinerary Planner

Create a travel itinerary planner that allows users to input destinations, dates, and preferences to generate a detailed travel plan. Include features like maps, weather information, and budget calculations.

TASK 4

Hotel Reservation System

Build a hotel reservation system where users can search for available rooms, make reservations, and view booking details. Include features like room categorization and payment processing.

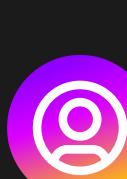

SUBMISSION DETAILS

You will have to provided task submission in 15 days during your internship period

It's essential for each intern to complete any three in the assigned tasks. If someone completes only two or one tasks, their internship may be considered incomplete or certificate will not be provided, So Please make sure to fulfill all three tasks assigned to you and submit in Submission form to ensure a successful Internship.
